

# Masonry Industry Contributor Directory

The Masonry Institute of St. Louis (MISL) is primarily funded by contractors through the labor agreement between the Mason Contractors Association of St. Louis and the Bricklayers' Union Local No. 1 of Missouri. In addition, the MISL receives additional voluntary contractor contributions and voluntary

contributions from the greater St. Louis area suppliers who wish to further promote the local masonry industry.

This directory provides a listing of the current MISL contributors with important contact information and a description of the general services provided by each industry contributor.

The MISL greatly appreciates the support it receives each year from the masonry industry, in and out of St. Louis. This support allows the Institute to continue the promotion of great union masonry construction and masonry materials to builders, designers, owners and the general public.

We hope you find this directory helpful, especially when making decisions regarding future masonry material purchases.
